### SRC AIRPORT HANGAR LED LIGHTING PROGRAM

Initiated 3/01/2020

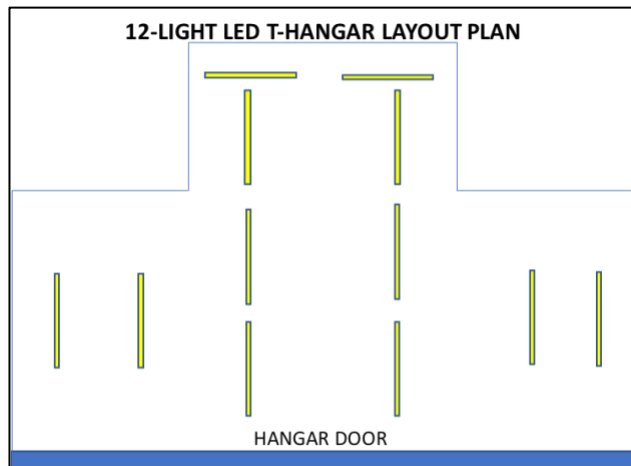

The Springfield-Robertson County Joint Airport Board’s non-commercial T-hangar LED (light-emitting diode) lighting incentive project is available to applicable tenants for a limited time. This program is offered in recognition that LED is the most energy-efficient and longer lasting technologies on the market today. More importantly, it offers superior lighting quality inside our hangars than any other type. Details of the program and how to apply are as follows.

**Lights:** Removal and disposal of old standard lighting and installation of 12 LED light bars as shown in figure on right.

**Switch:** Replacement of timer dial with standard switch (on/off) that will illuminate all 12 LED light bars at once.

**Installer:** Randy Brooks, BPM Lighting, licensed electrician, contractor

**Program Period:** Based on availability but not greater than 12 months.

#### Program Financials:

Program Entry	Up front prior to work start	(\$400)		1 time	(\$400)

**Payment:** Program entry fees are paid directly to the contractor, Randy Brooks. A check for the full amount can be mailed to the airport (Attn: LED Lighting Program) or handed off to an airport employee at the terminal/customer service counter.

**Communication:** Once entry fee is received, tenant applicants will receive an e-mail from the airport staff indicating enrollment and an estimated date/time of work performance. Work will not commence until three tenant applicants are in the queue. Please contact the Airport Manager via phone or [e-mail](#) if you have any questions. Contact information is available on our website.

**Early Departure:** This is not a pro-rated program. In the event a tenant applicant departs their hangar prior to the full 24-month credit period the tenant will forfeit the balance remaining.
